2019 Annual Report

Our Vision

The vision of the Institute of African and Diaspora Studies is to be a foremost “Institute for the exchange of cultural and social ideas and research excellence in pursuit of knowledge for the development of Africans at home and the diaspora as well as humankind”.

Our Mission

To provide a platform for profound and ground-breaking research, which will help to propel national development and encourage global discourse, especially between Africans at home and the Diaspora.

The IADS

The signboard tells the story of a Tripartite collaboration among three strong Institutions. The University of Lagos where the Institute of African and Diaspora Studies (IADS) is domiciled, the University of the West Indies who co-founded the IADS and the African Cluster Centre of the Africa Multiple Centre of Excellence, University of Bayreuth. The Institute combines the functions of teaching, research and advocacy, while providing a platform for researchers and making research materials available to the general public through resource persons, conferences and seminars.

Preface

In 2019, the IADS took some bold steps that are now defining the course of research in African Studies on the continent of Africa and in the Diasporas. As the IADS grew in functionality and relevance, she expanded her capacity by hiring new researchers in the persons of Dr. Abisoye Eleshin, a Linguist and Dr. Moses Yakubu, a Historian. These duo complement the already engaged research team, comprising Prof. Muiyiwa Falaiye, a Sage-Philosopher; Dr. Ayo Yusuff, a language Engineer, Dr. Kayode Eesuola, a Political Scientist and Dr. Akinmayowa Akin-Otiko, who specializes in the Religion, Culture and the Medicine of the Africans. The year 2019 also saw the renewal of the Prof. Muiyiwa Falaiye's tenure as the Director of the IADS, and the appointment of Dr. Feyi Ademola-Adeoye as the Deputy Director to replace the former Deputy Director, Dr. Obi Iwuagwu who had completed his tenure. The IADS also successfully completed the programme for the first set of MA students and has since admitted the second set.

To achieve the vision of the Institute, the researchers in IADS along with research associates at the University of Lagos applied for and won grants. The most defining of the grants is

the one from the Africa Multiple Cluster of Excellence, University of Bayreuth. This is an administrative grant that enables the IADS to host an African Cluster Centre (ACC) that will enable researchers to carryout research and collaborate with other Cluster Centres as well as the Cluster in Bayreuth. It is tasked with a mission to reconfigure African Studies by generating and storing knowledge in what is called 'the knowledge lab'.

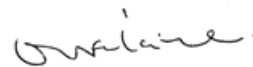

The seven Research Clusters of IADS were strengthened by choosing new Research-Heads and Team-Leaders in order to stay abreast of research

and reflect the kind of dynamism that is required for African Studies. These Research Clusters enable both full time and associate researchers of IADS to engage in relevant and contemporary issues in African Studies.

The IADS is excited at the multidisciplinary nature of African Studies, and this has led to different partnerships that both the Institute and her researchers are involved in. The IADS looks forward to many more research collaborations in 2020. Going through this report will show that the year 2019 was busy in the IADS. In the following pages the activities covered, frequent roundtables, visits of scholars and execution of different projects are presented. There is no doubt that the IADS is the right place to be, when it comes to African Studies. This is reflected in the number of requests from scholars and students who want to visit and/or collaborate with researchers in the IADS.

The IADS is grateful to the Principal Officers of the University of Lagos for all the support that she enjoyed in 2019. In particular, the V.C. Prof. Oluwatoyin Ogundipe is acknowledged for his leadership and support in grant applications. The IADS' team also

recognises the effort and support of the past Director of the Office of Research and Innovation Prof. Wellington Oyibo as well as the current Director Prof. Bola Oboh and Staff of the Office of Research and Innovation, University of Lagos. All research associates and all our partners and sponsors who donated books to the Library and those who were available to engage in research are greatly appreciated. We look forward to greater heights in the coming year

The IADS

2019 marked two years of successful engagement of the IADS, after the formal launch on August 9, 2017.

The Vision of the IADS “to become an Institute for exchange of cultural and social ideas and research excellence in pursuit of knowledge for the development of Africa, the African Diaspora and the world” and the Mission “to provide a platform for profound and innovative research, which shall help to propel national development and encourage global discourse, especially in relation to Africans and African Diaspora.” (MOU, 2017: Art 3.0, 1 & 2) have been maintained. The physical address of the Institute remains J P Clark Building, beside the Senate building, close to the Faculty of Arts.

Africa Multiple, University of Lagos ACC

The IADS is host to the University of Lagos African Cluster Centre, a centre of the African Multiple Cluster of Excellence.

The 'Africa Multiple' Cluster of Excellence at the University of Bayreuth (Germany) is set up to reconfigure African Studies at the conceptual and the structural levels. The project is funded through the Deutsche Forschungsgemeinschaft e.V. (DFG –

2019 IADS Grants

German Research Foundation) through, Clusters of Excellence within the framework of the Excellence Strategy of Germany's Federal and State Governments. The journey began in January 2019 when the African Multiple Cluster advertised for Cluster Centres across Africa. 52 Institutions applied and after a competitive process, the IADS along with three other African Institutions won an Administrative grant of 840.000 Euros, that will be spread over seven years (2019 -2026).

The grant is to establish a global strategic African Cluster Centre (ACC) in four Universities across Africa. The IADS, represents University of Lagos, and therefor the University of Lagos - ACC. The purpose of the ACCs is to support high-level research in partnership with the Cluster in Bayreuth. As part of its contribution to African Studies, the IADS actively engages in reflections on African realities with the aim of changing the monologue of African Studies to a dialogue between scholars in Africa and those in the Diaspora, and allowing the African perspectives as well as the African reality to have

voices in the Discourses. Having won the grant, the IADS now hosts the University of Lagos African Cluster Centre of the Academy of Advanced African Studies, University of Bayreuth.

2019 IADS Grants

The Researchers in IADS along with some researchers from the Faculty of Arts, University of Lagos applied for a TETFund grant, with a proposal titled: ENGAGING SOCIAL MEDIA IN REMODELING CHARACTER THROUGH ART AND CULTURE. The proposal made it through the first round of the keenly contested selection process. This proposal is unique because of the focus on character formation of the millennial using the social media to impact cultural values.

Lagos African Cluster Centre (ACC): As an ACC hosted in the IADS, there is a focus on promoting the reconfiguration of Africa Studies as an inter-and trans-disciplinary field for the production of knowledge in and about Africa and its diaspora.

Fellow of the Academy of Africa Multiple. Dr. Akinmayowa Akin-Otiko of the IADS, won a Fellowship to spend two months in the University of Bayreuth, as part of the programme of the Africa Multiple. He will be in Bayreuth from February 1 – March 30, 2020. He will be working on a project entitled: "Reconfiguring Bio-Ethical Theories Of Relationship In The Practice Of African Traditional Medicine Among The Yoruba Of West Africa".

Unilag - Central Research Committee grant: Three researchers from the IADS are currently involved in two research projects funded by the University of Lagos Central Research Committee. The first grant involves, Dr Kayode Eesuola and Dr. Ayo Yusuff; the project is entitled: "Ifá and Popular Culture in Benin and Nigeria: An Interventional Research into the Use of African Knowledge for African Governance".

2019 IADS Grants

This grant speaks to the heart of the research agenda of the IADS, as it investigates the traditional understanding and learning process of Ifá divination in its various forms. The researchers are experienced hands and they will be publishing their findings in one of IADS publications for 2020.

The second research involves Prof. Oladiipo Ajiboye (Department of Linguistics African and Asian Studies) and Dr. Abisoye Eleshin of the IADS. This research examines the indigenous advertising processes in various Yoruba speech communities. It brings to the fore the various ways by which trades and trading activities are promoted and carried out in Yoruba land across ethos and times to the present time.

Collaborations

The IADS ensures the interdisciplinary method of research by collaborating with other Research Institutions, first among others is the Africa Multiple Centre of Excellence, University of Bayreuth, the major partner in the business of Reconfiguring African Studies.

By virtue of hosting University of Lagos ACC, the IADS is in collaboration with: Moi University,

Kenya; Rhodes University, South Africa and University of Joseph Ki-Zerbo, Burkina Faso.

Within the University of Lagos: The IADS researchers collaborate with researchers in the ARUA Centre of Excellence for Urbanization and Habitable Cities in Africa; the ARUA Centre of Excellence for Unemployment and Skill Development in Africa, and the ACE-For Drug Research, Herbal Medicine Development and Regulatory Science.

IADS Researchers and Principal Investigators of the University of Lagos ACC: There are two groups of researchers that are affiliated to the Institute; (I) The IADS research affiliates, are interested members of the University of Lagos and beyond who regularly associate and engage in collaborative research with researchers in IADS or who belong to one of the seven Research-Clusters in IADS. (II) The second group of researchers are the Principal Investigators (PI) in the Lagos ACC. This group of researchers are members of the Cluster in Bayreuth and they enjoy the privilege of leading research projects as well as accessing research grants from the Cluster.

2019 IADS Grants

2020 MA Admissions

The IADS is pleased to announce that twenty (20) full time and three (3) part time students have been admitted for the MA African and Diaspora Studies programme. This is the second set. The first set had a smooth sail and will be graduating during the convocation ceremony of the University of Lagos scheduled for March 9 – 13, 2020.

IADS Research Clusters

The IADS appointed Heads of Research Clusters (HRC) and Team Leaders (TL) for the Research Clusters. The IADS draws her intellectual dynamism from the seven research clusters.
